DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2 are drawn to compositions

Group II claim(s) 3 is drawn to method of using compositions

Group III claim(s) are 4-10 drawn to a method of making compositions

The inventions listed as Groups I, II, III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reason:

A Chemical species in Group I, Group II and Group III is found in the prior art. The chemical represents a cyclic terpenoid.

Rijke et al. (Perfumer & Flavorist 1982 vol 7 p. 35 Figure 4 item XXIV) disclose a chemical in the genus of Claim 1 associated with structure h compounds. The relationship is shown in Figure 1 below.

Figure 1a) Applicant's Compound h genus. Figure 1 b) Rijke et al. Chemical XXIV.

When the Applicant's R is an ethyl group, the compound of *Rijke et al.* is envisioned. The cyclic terpenoid species anticipates the Applicant's genus and is not unique because it is known in the prior art and therefore no special technical feature is involved. Thus, in accord with MPEP 1850 II.; there is lack of unity *a posteriori* since the chemical genus of the cyclic terpenoid is disclosed by *Rijke et al.*

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
